

Home owner/Occupier
London Borough of Croydon

Dear Sir/Madam

Carriageway Surfacing

I am writing to inform you that FMCONWAY , on behalf of Croydon Council, will shortly be commencing resurfacing at the location/s and date/s below:

Date: 04th TO 05th May 2021 between 08:00-17:00
Location: Addington Village Road / Spout Hill

To enable the Contractor to undertake the works, on-street parking will be suspended during works hours. We also kindly ask that with forward planning vehicular access to and from properties adjacent to the road are reduced to a minimum during the works hours. Pedestrian access will not be affected.

Advance driver / resident information boards will be in place before the works commence, advising of the precise dates and times of the road closure. Please however note that unforeseen circumstances (e.g. inclement weather conditions) may necessitate a change to the scheduled dates and information on road signs will be changed accordingly. Please check the road signs regularly for any updates

The resurfacing works will take place **between Property no : 8 Addington Village Road , Along Spout Hill to Bridle Way .**
Due to the nature of these works it is inevitable that some disruption will occur. For this reason it is recommended that where possible you use alternative routes, or allow extra time to complete your journey.

The on-street parking suspensions that will be in place within the works area are **07:30-17:00 on 04TH to 05TH May 2021 . No parking for residents on the highway in the areas covered by the enforcement signs.**

Please note that **penalty charge notices (PCN's) will be applied to vehicles parked within the suspended areas during the works hours and/or vehicles relocated.**

Due to the above we would urge all residents to ensure that their vehicles are moved from the suspended areas in order to avoid any delays to the works as well as incurring any charges.

If your vehicle is relocated please contact our Trace support system on 0300 0770100, who will provide you with an exact location of your vehicle.

We are extremely sorry for the inconvenience this may cause residents; however we want to ensure that all works carried out on the Croydon network are to the highest standards to ensure value for our residents.

Beware Bogus Callers

Croydon Council does not permit its employees or contractors to undertake work on private property during the course of any scheme. If anyone offers such work they will not be a council approved contractor and should be treated with caution. Any scheme undertaken by a council approved contractor does not require cash payments.

Cold calling doorstep traders offering to carry out home maintenance work such as driveway repairs and roofing are a problem in Croydon. These traders can be very persuasive and can intimidate you into agreeing to have work undertaken. The advice from Croydon Trading Standards Service is to say "NO" to all cold calling traders – Every Time. If they will not leave or you get into difficulties, then call Croydon Trading Standards on 020 8407 1311

Thank you for your cooperation whilst we carry out this essential upgrade. If you require any further information do not hesitate to contact us by email: HighwaysMaintenance@croydon.gov.uk or tel: 020 8726 6000 Ext 52816.
