

Keeping Your Child's Teeth Healthy for Parents, Carers and Guardians of Under 5s

King's College Hospital's Oral Health Promotion team would like to invite parents/carers/guardians to attend a <u>free</u> online event.

Get some practical tips for looking after your child's teeth.

Our aim is to reach as many people as we can across: Lambeth, Southwark, Lewisham, Croydon, Merton, Sutton, Kingston, Richmond and Wandsworth.

Event details:

You can find the dates and times of the online events on the second page. Scan the QR code to register and secure a place.

HOW TO SCAN: OPEN, AIM & TAP

Open the camera on your phone Aim it at the

code

Tap the banner that appears Tooth decay is a leading cause of children aged five to nine years old in England being admitted to hospital.

Dental decay among young children remains an important public health issue as it leads to pain and distress, sleepless nights for children.

Parents also averaged 2.5 absent days from work per year because of their children's dental problems

Dental decay is largely a preventable disease.
